ARE YOUR MEDICALLY FIT TO TAKE PART?

By participating, you confirm that you are fit to complete the activity and that you have informed us of any medical conditions affecting your participation in the session. You must notify us of any specific medication and dietary requirements you need during the day by way of your participation form. If your condition requires medicines or ongoing treatments within the time-scale of your session, you must bring these medicines.

Your instructor cannot administer certain medicines, you must be capable of this yourself or have someone present and designated who can.

BASIC EQUIPMENT CHECKS

A well-fitting, serviceable mountain bike is the minimum requirement for your session. Your instructor will perform a basic check on your bike determining its suitability and mechanical safety. Your instructor can adjust your bike for basic fit, and for setup advantages on the trail, but cannot perform major maintenance. Please make your best effort to bring your bike in a good, serviceable condition.

Your instructor will also check your helmet. If it has any signs of visible damage, they will not pass it for use during the session. Please inspect your helmet beforehand and ensure that it is not damaged. If you know that your helmet had been in a crash but it is not visibly damaged. We strongly recommend that you buy a new one.

If either of these mandatory pieces of equipment fail these basic tests, you may not be able to take part in your session. In this case you would not be entitled to a refund or rescheduled session.
